A Calendar of Rainfall

Year:

Location:

0		35	
5		40	
10		45	
15		50	
20		55	
25		60	
30		65	

Print out a chart for each child. Follow the colour palette in the key at the bottom of page one or create your own colour palette! Start colouring your page on a daily basis, rounding off your recorded rainfall to the nearest unit or ten! Use the second page in this printable set to total each rainfall range. This makes for interesting observations!
